

# GOVERNMENTS APPEAL TO BAVARIAN PEOPLE

Hoffman and Communists Both Ask People to Stand by Their Respective Claims to Power.

## SOVIET UNION IS PLANNED

Manich Statement Says Junction of Hungary, Russia and Bavaria Will at Once Be Formed.

By The Associated Press.

MUNICH, Tuesday, April 8.—The Bavarian soviet government and the government which it is attempting to depose issued appeals to the Bavarian population today. Eric Muehsen, a member of the communist central council, in an appeal to the proletarian said:

"Without regard to differences of opinion, the communist leaders and the working population are united in working for the realization of socialism and communist dictatorship. A red army will be created immediately and connection with Russia and Hungary will be effected immediately. The socialization of the means of production is the only way to secure genuine expression of opinion."

"The new revolutionary power will order new elections as soon as possible on the revolutionary basis in which the council system will build itself up and in which all questions about their affairs will be decided by the working people. But only by the working people, because the capitalists will not share in the right of determination."

From Bamberg the Hoffman government countered with an appeal to the Bavarian people, calling attention to the sufferings of four years of war and outlining a program which the cabinet has decided upon for the welfare of the state. The appeal concludes by urging the workers and all others to stand behind the government they elected and in a spirit of democracy to carry on the reconstruction work notwithstanding the dictatorship of terror "which threatens the freedom of the Bavarian people."

J. B. Hawkins, remodeling, 123 West Second, \$3,000.  
Beulah Conner, garage, 771 West Fourth, \$150.

## URGES CITIZENS TO GO OVER TOP IN VICTOR LOAN

Special to The World. OKLA., April 10.—President Harry G. Hendricks of the commercial club, who is also chairman of the Victory Liberty loan, made the announcement at the regular weekly club luncheon yesterday that every member of the club was expected to get busy and aid in pushing Britrow over the top again in record-breaking time. This issue is devoted to exploitation of the trade extension trips to be made this spring by local merchants.

April "Spirit" Out. The April edition of "The Tulsa Spirit," official organ of the chamber of commerce, is just off the press. This issue is devoted to exploitation of the trade extension trips to be made this spring by local merchants.

To Entertain Tubans. Jennings, Oklahoma, one of the towns to be visited by Tulsa business men on their trade extension trips this spring, has asked for an extension of the amount of time the Tubans are to spend there. Jennings is preparing a reception for the visitors.

# Is Appointed Counsel For War Finance Body

Louis H. Wehle.

Louis H. Wehle of Louisville, Ky., has been appointed general counsel of the war finance corporation. This legal division will pass on regulations governing advances to exporters under the recent congressional authorization of \$1,000,000,000 for promotion of foreign trade.

## WHITE RIVER TRAIL ROUTE MEETING CALLED

The officials of the White River Trails association have called a route meeting of the Oklahoma section of the highway to meet in Kanab, in Delaware county, Friday, April 25, at which delegates from all points between Tulsa and Okmulgee will be invited to attend. James Pifer, of Okmulgee, will have charge of local arrangements and the meeting will be addressed by Will D. Sweet, of Okmulgee, the Arkansas vice president of the association, and E. Lee Guthrie, the Oklahoma vice president.

The White River Trails association was organized at Eureka, Springs, Ark., in April of last year and the highway extends from Tulsa to Springfield, Mo., via Okmulgee and Eureka Springs, Ark., and Holliester, Mo. The headquarters of the association is at Holliester. During the past winter federal aid has been secured and construction work is now in progress upon three separate projects on the Arkansas section of the route.

The object of the meeting in Kanab on the 25th is to outline a federal aid project for the eastern Oklahoma section through Mayes and Delaware counties.

## Ten Alien Enemies Given Release at Salt Lake City

SALT LAKE CITY, April 10.—Ten enemy aliens from Portland and Seattle, who have been confined at the war prison barracks at Fort Douglas, near here, since the United States and Germany and Austria have been at war, were released today and placed on a train for their former homes.

Unfilled Steel Orders Decrease. NEW YORK, April 10.—Unfilled orders of the United States Steel corporation on March 31 were 5,430, 572 tons according to the corporation's monthly statement issued today. This is a decrease of 33,215 tons, compared with the orders on February 28.

# ROADS DEVELOPMENTS PICTURED IN MOVIES

Nation Will Be Instructed By Slides and Films As to Good and Bad Roads.

Holding that sound highway development is a question of cost importance to the people of the United States, officials of the visual instruction section of the department of interior are perfecting plans for an international distribution of slides and motion pictures depicting road construction and benefits to be derived therefrom.

The work is under the charge of P. W. Reynolds, associate director of the educational extension division who is assembling his aides some of the best known authorities in the United States on all branches of visual instruction from the first preparation of the film to its introduction to the smallest school children, the church or club in the smallest community in the country.

Few phases of government work are more interesting than this as presented by Mr. Reynolds. "The visual instruction section will seek to present topics of national interest through the medium of an elaborate booking system," he said. "Arrangements have already been perfected for the distribution of these films and slides in 25 different states and we are rapidly adding to that number. A set of 40,000 questionnaires recently sent out to universities, schools and community centers, and others has developed a surprising interest and everywhere there is a keen demand for educational subjects presented by the government."

Exhibit French Roadways. "In the war department archives there are now some 1,000,000 feet of film negative presenting every phase of America's participation in the war, little of which has yet been released. We are now making a topical digest of this material with the idea of making war subjects our leader in various topical views. "Thus in the case of highway development we can first show road

making in France under fire, the difficulties of transportation, and then branch from that into road construction as carried on in the United States with "cut-ins" showing the results of road improvement as interpreted by the eye, the current statistical sense we have. "Unfortunately our funds do not permit us to enter into an extensive film making campaign, hence we are calling upon associations which many have films on this subject to loan them to us. No advertising matter of any kind could be used by the government, beyond a courteous acknowledgment of the source of the picture, but by editing scenes from a number of reels, we can build up a series of say 19 one-reel features, which we will then link up with war pictures and send out broadcast."

Other Subjects Treated. "Later as the value of this work becomes apparent we expect to have feature films prepared and offered for use after government inspection. These will always be available to any community desiring them, free of charge."

"In the meantime we are making arrangements to make use of slides which government agencies have on hand and will extend this as rapidly as we can procure new films."

"It is also our plan to interchange highway reels, for example, with Great Britain, France and other countries in order that our people may learn what is being done to give them the benefit of our work."

"Thrill, safety, health and other basic subjects will be similarly treated as the demand arises and it is believed that this new government plan will stimulate public welfare to a remarkable extent."

K. C. Men Coming. A delegation of Kansas City business men on their annual trade extension trip will invade Tulsa, 300 strong, on the evening of May 9. A smoker will be held for the visitors at the municipal auditorium. They will leave the morning of May 10.

Visits His Son. A Y. Calahan, receiver for the land office at Guthrie and former United States congressman, is in Tulsa visiting his son who is employed at the Caden company office.

# BOSTON SHOE SHOP
